

## Questions, Anybody?

Some for somebody, sometime:

Is that a lesser-spotted woodpecker?

Is that an iceberg?

Will Sophie say yes?

Some for some people, every time:

How do you always know?

When does it get easier?

Why do I have to eat vegetables?

Some for everybody, sometimes:

Where did I put that?

Should I say something?

Is this going to hurt?

Some for many, too many times:

When did you have it last?

What's the third letter of your password?

Do you have anything for vegetarians?

Any for everybody, anytime?

Why are we here?

What can we know?

What should we do?

Or is every body a thisbody?

A whichbody?

A herebody?

A nobody?
